

Connecting the human and technical elements of security, resilience, and compliance

Operational risk advisory for a digital age

Antonius Strategies partners with mission-driven and public-sector entities to bolster cybersecurity and reduce operational risk while navigating evolving threats and regulatory requirements. We braid together cyber and information security, regulatory and grants landscapes, and organizational strategy. Think defensive cybersecurity and proactive compliance with a truly holistic approach.

WHAT WE DO

-  Compliance Readiness & Audit Finding Implementation
-  Cybersecurity Risk Assessments
-  Policy, Procedure, & Governance Development
-  Incident Response Planning & Tabletop Exercises
-  Security Operations & Compliance Coaching
-  Speaking Engagements & Workshops

WHO WE SERVE

- Grant Recipients, Pass-Through Entities, & Funding Entities
- Regulated & Security-Conscious Businesses/Organizations
- Government Contractors & Integrators

WHY CHOOSE US

- **Cross-sector experience and expertise** across government, education, nonprofits, business, cybersecurity, and grants, shaping how we read regulatory impact
- **Skilled in translating** cybersecurity regulations and best practices into practical, fundable actions that strengthen your proposals and positioning
- **Built for speed** to engage quickly and adapt to your organization's unique context
- **Focused on strengthening** your team's internal capacity, rather than creating dependency on us
